EDUCATION

Bachelor of Technology , GLA University, Mathura	(8.1 cpi) May 2024
Intermediate Baluni Public School, Agra.	(91.80%) June 2020
High School Baluni Public School, Agra.	(92.33%) June 2018

PROJECTS

UsePopcorn: [link](#) Nov 2023 - Dec 2023
Frontend Designer and Developer

- usePopcorn delivers real-time movie details through API integration. Users can create and manage personalized watched lists, adding ratings, including IMDb ratings. Notably, the project optimizes local storage for secure and efficient data storage. Demonstrating proficiency in HTML, CSS, and React.js, usePopcorn showcases my skills in creating an engaging, user-friendly experience for movie enthusiasts.

Technology used: Html, CSS, ReactJs.

Note Keeping Web Application: [link](#) Dec 2022 - Dec 2022
Frontend Designer and Developer

- It is a web application developed for keeping the notes with date and time it was written.

Technology used: Html, CSS, JavaScript., Visual Studio Code, Browser(any)

Weather App: [link](#) Sept 2023 - Sept 2023
Frontend Designer and Developer

- A weather app that retrieves real-time weather data from an API, offering users instant access to current weather conditions and forecasts for their chosen locations. Created using asynchronous programming.

Technology used: Html, CSS, JavaScript.
